

Event: 2

Event Name: WEB DEVELOPMENT USING WORDPRESS

Event Date: 10th October 2023

TESA Coordinator: Prof. Sandeep Kate

Day: 10th October 2023

Venue: B003 Computer Lab

Time: 01.30 pm onwards

Event Conducted Under: TESA

Target Group: FE B Division

Brief Summary about Activity:

Workshop Overview:

The workshop was organized with the objective of empowering students with practical skills and knowledge in a specific area. Here is an overview of the key aspects of the workshop:

1. Registration and Participation:

We had almost 100 plus students registered for the workshop, demonstrating a high level of interest and engagement from our student community. But because of the Lab infrastructure facilities only 60 students of FE B Division are allowed to participate. Sixty students actively participated in the workshop, showcasing strong attendance and commitment.

2. Workshop Content:

The workshop covered a range of topics related to WEB DEVELOPEMENT, including Web Site Design, hands on experience with WordPress and its tools, acquiring knowledge of domain, hosting etc.

Mr. Mayur Dalvi and Technical Team of Telecommunication Students Association (TESA) led the workshop sessions and provided in-depth insights and practical knowledge.

3. Format and Schedule:

The workshop was conducted over 3 hours focusing on specific aspects of the topic. Sessions were structured to include lectures, hands-on activities, group discussions, and Q&A sessions to ensure active student engagement.

4. Learning Outcomes:

Department of Electronics and Telecommunication Engineering

Students who attended the workshop reported a significant improvement in their understanding of Web Design. They gained practical skills that are directly applicable to their academic studies and future careers.

The workshop also encouraged critical thinking and problem-solving abilities.

5. Feedback and Evaluation:

Feedback forms were distributed to participants at the end of each day to gather their thoughts and suggestions. Overall, the feedback received was overwhelmingly positive, with 45 % of attendees expressing high satisfaction with the workshop.

6. Future Plans:

Based on the success of this workshop, the TESA a Student Association is considering organizing similar workshops in the future, addressing different areas of interest.

Conclusion:

The workshop conducted by the **Telecommunication Engineering Student Association (TESA)** was a resounding success in terms of participation, learning outcomes, and overall student satisfaction. It played a crucial role in enhancing the knowledge and skills of our students and promoting active engagement within our academic community.

I would like to express my appreciation to the members of the Student Association who organized and facilitated the workshop, as well as to Mr. Mayur Dalvi for his invaluable contribution.
